GREAT REVOLUTION IN DEMOCRATIC PARTY

Movement to Depose John Sharp Williams.

CHAMP CLARK TO BE SELECTED

Campaign for Ousting Williams Has Been Quietly Going on for a Long Time—Test of Strength Will Be Made in December.

Chicago, Jan. 14.—A Tribune dispatch from Washington says that there is to be a great revolution in the Democratic political camp.

Pledges have been given which insure the selection of Champ Clark of Missouri, to be Democratic leader in the house of representatives and the party candidite for speaker in place of John Sharp Williams, of Mississippi, the present leader.

The campaign for the deposition of Williams has been going on quietly for a long time until now pledges from old members who have been reelected to the sixtieth congress and from new ones who will come into the house at the same time have reached a number of sufficient to insure the control of a Democratic caucus in behalf of the Missouri representative.

This change is of immense importance, because it involves a great deal in the way of presidential politics, as the Democratic candidate for speaker will not be proposed until just before the opening of the first session of the next congress in December next. From that time on, candidates for the presidency and vice presidency will be busily engaged in different states and the influence of Democratic representatives in congress will have a good deal to do with making the nomination.

Mr. Williams' friends do not give up the fight yet, but there is reason to believe the pledges for Clark now constitute a clear majority of the caucus.

Found with His Skull Crushed.

Whitmire, S. C., Jan. 14.—An unknown white man, about 20 years of age, was found in an unconscious condition near the railroad tracks in the station yard here. He was immediately taken to the Seaboard Air Line waiting rooms and made as comfortable as possible. Dr. Boyd was summoned and made an examination, finding that his skull was crushed and his brains running out. Nothing was found on his person that could be used for identification with the exception that the hat worn had been purchased from Wylie & Co., of Chester, S. C. The Chester authorities have been notified but nothing has as yet ben heard from them. The unfortunate stranger is still living, but is expected to die at any moment.

Birmingham, Ala., Jan. 14.—Petition was filed in in the United States court here asking that the Standard Trust company of Deleware be declared a bankrupt, and that the First National bank be compelled to turn over to the court $16,000 of the trust company's money, alleged to be on deposit in that bank.

Heyward, of South Carolina, president of the Southern Immigration association, on the subject of immigration. Lieutenant Governor Henry B. Gray will personally convey the same invitation to the Alabama legislature which is expected to come here in a body. The purpose is to work up interest in immigration to the south by having the law makers hear the subject discussed.

Rev. Baker Acquitted.

Lexington, Ky., Jan. 14.—In the circuit court the jury trying Rev. J. H. Baker, former secretary of the defunct industrial Mutual Deposit company, rendered a verdict of acquittal. Baker was formerly a Methodist preacher and was accused of converting the surplus money belonging to the stockholders to his own use. Rev. Baker was accused jointly with W. H. Bush and W. E. Bannister, former directors of the company. Rev. Baker is sixty years old. He, Bush and Bannister were sitting together in court when the verdict of acquittal was announced, and the three broke down and cried.

Could Not Talk.

Goshen, Ind., Jan. 14.—When she refused to testify against her brother in a criminal case here, Ertie Drackamiller, aged 19, was sent to jail for contempt of court. She declined to utter a word from the witness stand, and would not listen to the admonitions of the court. After the case went to the jury, she was released and asserted that medicine she had taken affected her tongue and made it impossible for her to reply. Clarence Druckamiller, the brother, was found guilty.

Seattle, Wash., Jan. 14.—The Sound steamer Alice Gertrude, owned by the Puget Sound Navigation company, struck on the reef at the Callahan bay Friday night She is lying 2200 yards from the beach and the heavy swells are pounding her to bit. Lines were shot ashore from the guns and the crew was saved. The vessel was built in 1899. She has been used as a mail boat on tri-weekly runs to Callahan bay and other points up the sound.

BUCKET SHOPS MOURN THEIR LOSS

Complain That South Has Lost Interest In Specueation.

SOME HOUSES ABANDON WIRES

Steady Flow from South Which for Years Enriched New York Operators Has Suddenly Diminished, and the Grief in Gotham Is Great.

New York, Jan. 14.—The recent complaints of brokerage houses that little interest was taken by the public in cotton speculation during the last season's cotton trading and that a large proportion of their accustomed business had been lost, seems to be borne out by a statement by one of the largest brokerage firms since the books have been balanced preparatory to the new year's business.

This shows that trading fell off with that particular house from an average of $38,000 monthly last year to less than $5,000 montly this past season. The bulk of the trading which comes to New York is from out-of-town connections, mainly in the south.

Decline in profits and poor prospects for the near future have led at least four important cotton houses here to abandon their southern wire service.

Another firm has cut its service in half.

Inspecting Light Stations.

Charleston, S. C., Jan. 14.—Commander W. S. Benson, U. S. N., inspector sixth lighthouse district, who has been absent from the city several days in Jacksonville, to which city he went to meet Rear Admiral Reiter, has returned to Charleston. Captain Benson said that he epected that Admiral Reiter, who is chairman of the light house board, would reach the city of Charleston on his tour of inspection about Jan. 24. Admiral Reiter is inspecting the stations in the southern part of the district and is at present on the St. Johns river. He will inspect the stations between Charleston and Jacksonville on his way up the coast and will be here about Jan. 24.

Judge Did Not Like Verdict.

Statesboro, Ga., Jan. 14.—The quarterly term of the city court of Statesboro adjourned after being in session for three or four days. Several cases of importance were disposed of. In the case of Eli Beasley, charged with selling liquor without license, the jury returned a verdict of not guilty, whereupon they were severely reprimanded by the judge for the verdict. If the evidence in the case was not sufficient to convict the accused, when will a Bulloch county jury ever convict a man for retailing liquor, was the way the judge spoke to the jury when their verdict was announced. The views of Judge J. F. Brannen on the liquor traffic are well known.

Stolen Jewels Not Located.

Atlanta, Jan. 14.—There have been no clews secured by detectives which might lead to the recovery of the jewels stolen from the residence of S. A. Ryan. Some officers scout at the idea of a thief climbing into the house from the front porch, and they say they believe the thief was secreted in the house downstairs and waited until the coast was clear before he began operations.

Fierce Fire at Clio, S. C.

Clio, S. C., Jan. 14.—Fire here has destroyed property to the value of $12,000, not more than half being covered by insurance. McLaurin's livery stable, with eight horses, McCall's hardware store, Kilpatrick's barber shop and Covington's market and restaurant were burned to the ground. The re is supposed to have been of incendiary origin.

Pensions Will Be Paid to Veterans.

THE "BRUNSWICK" WELCOMED.

Inauguration of the Line Means Much to Island of Cuba.

Havana, Cuba., Jan. 14.—The steamer Brunswick, of the Brunswick Steamship company's new line, arrived in Havana harbor Saturday.

The new steamer came in with flags and colors flying, and was given a royal welcome on her maiden voyage to this port.

A dinner was given on board the steamer Saturday, which was attended by prominent officials, leading merchants and newspaper men, the speakers welcoming H. M. Atkinson as "Admiral of the new fleet."

In the newspapers here President Atkinson is termed "El Almirante."

The inauguration of this new line is looked upon here as the most important move in years in the matter of promotion of commerce between Cuba and the United States, particularly the states of the south.

The visiting party who came on the Brunswick are being royally entertained.

Mail Rider Arrested.

Winnsboro, N. C., Jan. 14.—Postoffice Inspector M. O. Halverstadt arrested Mail Rider James W. Boulware on Star Route No. 20262, from Cassels to Winnsboro, for rifling a package of mail matter addressed to J. C. Willingham. The mail on Star Route from here to Flint Hill is carried by hand by the mail rider, outside of pouch. There has been complaint for some time by the patrons of the route from here that their mail was being rifled, part only of the package being taken and the rest left undisturbed. A watch chain was found in one of his pockets, which he had taken out of a package addressed to J. C. Willingham. The prisoner was taken by the postoffice inspector to Columbia, to be bound over by the United States commissioner, Mr. Verner, for next term of the United States court.

Situation at Jackson Is Quiet.

Lexington, Ky., Jan. 14—The situation at Jackson, Breathitt county, Saturday morning was quiet. Many of the feudists have left town to remain for a week, when the case of Judge James Hargis will be re-opened until Judge Carnes is permanently enjoined from trying the case. It is almost certain that the troops will be sent there to preserve peace when the trial does open. Captain C. W. Longmayer, of battery A, of Frankfort, has been notified to have his men in readiness to go to Jackson at the shortest notice. General Roger D. Williams, of this city, said the troops may not be needed, but he has ordered the local company of militia to be ready.

Live Fish Left in Dwellings.

Owensboro, Ky., Jan. 14.—The residents of the Panther Creek neighborhood, sout hof Owensboro, who have been driven from their homes by the high water, believe that a special providence is looking after them. The water has receded to a great extent and many of the farmers are returning to their homes. They were badly in need of provisions, but in several of the houses live fish were found on the floors, being left there by the receding waters. In the home of Joseph Adkinson, a 12-pound buffalo fish was found. The farmers have no fresh meat, and the fish were greatly enjoyed.

Mrs. Oliver's Gift.

Pittsburg, Jan. 14.—Mrs. Jas. B. Oliver, widow of James B. Oliver, of the Oliver Iron and Steel company, who died about a year ago, announced that she had given $200,000 to the South Side Hospital to be used for the erection of an addition in memory of her late husband.

SHAW REFUSES TO NAME BIRMINGHAM

As Location For the New Sub Treasury.

ATLANTA IS STILL IN THE RACE

And the Secretary's Failure to Designate the Alabama City, which Was Selected by the Caucus of Three States Makes Prospects Brighter.

Washington, Jan. 14.—Secretary Shaw has refused to designate Birmingham as the place for the subtreasury, which city had been agreed upon by the three states that entered the caucus.

Atlanta's chances are as bright as they have been since the contest began.

Serano Payne Friday received from the secretary of the treasury a reply to Mr. Payne's communication of a few days ago in reference to a subtreasury in the southeast. Mr. Payne would not divulge the contents of the secretary's letter, declaring that he would first have to lay it before the members of the ways and means committee.

It was stated at the treasury department that the letter had been sent but its contents would not be divulged. Later it developed that Mr. Shaw had refused to designate Birmingham. Several weeks ago he stated that if all the states in the southeast could agree on a place, he would recommend that a sub-treasury be established at that place.

Hon. Gordon Lee has introduced in the house bills calling for the appropriation of $50,000 each for public buildings at Cartersville and Cedar.

Physicians Are Nonplussed.

Lexington, Ky., Jan. 14.—The Bible student, R. T. Booker, of Scottsburg, Ill., who was hypnotized here at a party by Miss Ray McGarvey, is still in a serious condition. He cannot leave his bed, although he has regained consciousness. Physicians have been unable to help him. It has developed that Miss McGarvey knows nothing about hypnotism. The young people were playing a "fake" mesmerism game, when Booker became a subject. It was with the utmost astonishment that he was seen to take the command to "sleep" seriously and directly became unconscious. It is said that hard study has affected Booker's nerve.

Mrs. Guinn Gives Bond.

McCays, Tenn., Jan. 14.—John Allen and Mrs. W. A. Guinn were arraigned before Squire H. M. Braulette on the charge of murdering Colonel W. A. Guinn, husband of defendant, december 6, 1906. Mrs. Guinn's trial was prostponed until Monday at 10 o'clock on account of the absence of her attorney. She gave $5,000 bond for her appearance next Monday. Allen was tried but the court refused to allow him to make bond and committed him to jail at Benton, Tenn.

Workmen and Police Fight.

St. Petersburg, Jan. 14.—Desperate fighting between the police and the workmen occurred in the Okhta quarter of this city during a domiciliary search. When the police appeared three workmen who were in the building extinguished all the lights and opened fire on the police. The latter responded and the fusillade was continued for some time in total darkness. The workmen finally retreated after killing two district inspectors and two policemen and wounding three policemen.

To Have Locomotive Plant.

Birmingham, Ala., Jan. 14.—Joseph H. Hoadley, speaking before the Birmingham commercial club announced that a locomotive plant will be built in Birmingham in the near future. Mr. Hoadley was the organizer of the American Locomotive company, and his announcement was received with much enthusiasm by the members. It is estimated over half a million dollars is involved with the starting of the plant.

BRISBANE GOT GAY; IT COST HIM $50

While in Drunken Mood He Offered Insult to Refined Lady.

GIVEN A SEVERE REPRIMAND

By Mayor Thomas, Who Went to the Fullest Extent in Assessing a Fine. Brisbane Pleaded Guilty—Another Case of Disorderly Fined.

Tom Brisbane, the negro painter and a well known character in this city and section, has been convinced that it don't pay to offer insults, especially to ladies, for he was arraigned in the city court Monday upon a charge of being drunk and disorderly, and was fined $50 and costs, which he promptly paid.

Brisbane's disgraceful actions in this matter were not appreciated even by the better element of his own race, who have censured him severely. He was indeed fortunate in getting off as lightly as he did, as public indignation was running high among members of both races.

Harry Mulberry, another negro who was charged with disorderly conduct, was sentenced to pay a fine of $20 and costs, or spend thirty days in jail. Having failed to pay the fine, he is now languishing in prison, with heavy iron bars between himself and his freedom.

HE SMOKED CIGARETTES.

Negro Who Fell Saturday Night Was Affected by Constant Smoking.

Joe Jackson, the colored waiter who fell on the streets Saturday night with an affection of the heart, after which he was taken to his home, is resting as easily as could be expected under the circumstances, and it is expected that he will be out again in a few days, should no relapse occur.

It is said by Jackson's friends that he is an inveterate smoker of cigarettes, and it is believed that this was the cause of the attack. If this be the case, he should be taught a lesson from this incident and refrain from further use of the "coffin tacks," as they have been properly termed.

Funeral of Mr. Pearce.

The funeral of Edwin Pearce, who died at his home in Alachua at an early hour Saturday morning, was held at 11 o'clock Sunday in Alachua, Rev. T. W. Moore of the Methodist church officiating.

The funeral was well attended, deceased being widely known and possessing a large number of friends throughout the county, many of whom drove several miles in order to show their respect and esteem. There were many beautiful floral decorations, the gifts of loving friends.

Deceased has been for thirty years a resident of Alachua county, and he will be greatly missed by everyone who knew him.

HOW THEY SQUIRMED

Great Times When Children Had to Take Old-Fashioned Cod Liver Oil and Emulsions.

You had to bribe them, hold their noses, in fact go through a regular circus to get them to take it.

That was years ago, before the two eminent French chemists, Morgues and Gautier, discovered how to separate the medicinal elements of the cod's liver from the useless, nauseating oil, and produced Vinol.

Vinol is not a patent medicine but a real cod liver preparation containing in a highly concentrated form all of the body-building, strength-creating elements of cod liver oil actually taken from fresh cods' livers, with all the useless oil eliminated and tonic iron added. It tastes fine and children love it. Wherever old-fashioned cod liver oil or emulsions will do good, Vinol will do far more good.

Our local druggist, W. M. Johnson, says: "It is because we know so well of what Vinol is made that we ask every mother who has a weak, delicate or ailing child, and in fact every run-down, debilitated, aged or weak person in Gainesville, and every person suffering from stubborn colds, hanging-on coughs or bronchitis, to try Vinol on our offer to return their money if it fails."—W. M. Johnson, Druggist.

NOTE—While we are sole agents for Vinol in Gainesville, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

R. F. Lewis of Lottieville was in the city yesterday. He was en route to Fort Ogden, where he is now extensively engaged in the naval stores and cross-tie business. He has seven "crops" of naval stores now open. This means that he has 70,000 boxes cut.

Mr. and Mrs. Evans Haile and a number of friends spent Saturday night and Sunday at the old homestead, Kanapaha. Mr. and Mrs. Haile enjoy a reputation as entertainers of the highest order, and their friends always hail with delight an opportunity to accept their hospitality at this historic old home.

Mrs. Guyton's Lecture.

(From The Resorter, Bay View, Mich.)

Enthusiastic, humanity-loving womanhood never appeared to greater advantage than did Mrs. Emma Platt Guyton before her audience in Bay View yesterday afternoon. Her lecture was especially interesting to mothers, and the eloquent plea for the rights of the unborn child, a better education in social purity for both sons and daughters, touched every heart, called tears to many eyes and left an impression which will not be soon forgotten by those who heard her.

How to Avoid Pneumonia.

We have never heard of a single instance of a cold resulting in pneumonia or other lung trouble when Foley's Honey and Tar has been taken. It not only stops the cough, but heals and strengthens the lungs. Ask for Foley's Honey and Tar and refuse any substitute offered. Dr. C. J. Bishop of Agnew, Mich., writes: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." J. W. McCollum & Co.

UNIVERSITY NOTES.

The Experiment Station Moved From Lake City to Gainesville.

Professor P. H. Rolfs, director of the Experiment Station, has come over from Lake City and established his headquarters at the University. Several men of the station staff have already come and the rest will soon follow.

Professor L. D. Scott of the University of New Mexico has arrived to take the place of Chief of the Department of Animal Husbandry in the Experiment Station, made vacant by the resignation of C. M. Conner, now of the University of North Carolina.

Professors Schmidt and Hochstrasser have moved into the new houses just opposite the University campus.

The approach to the University from the city of Gainesville is becoming all that could be desired. The city has paved the street leading from the center of town out to the corner of the campus with crushed rock and has flanked the paving with granitoid curbing and sidewalks. The county is now constructing a wide clay road in front of the campus and the University is constructing a walk alongside of this road which it hopes to pave with granitoid when the necessary funds are provided.

The examinations for the Rhodes Scholarships will be held at the University January 17-18, under the direction of Professor J. N. Anderson.

The gas machine, which has remained at Lake City awaiting the removing of the Experiment Station, is now being installed and all scientific departments will soon be provided with gas, which will greatly facilitate their work.

Bitten by Dog.

Captain J. Maxey Dell had the misfortune to be bitten by one of his dogs Saturday, with the result that he now has a sore arm.

Captain Dell, who is quite a sportsman, was out hunting with some friends, when the dog became entangled in a wire fence. In attempting to extricate the animal the canine sank his teeth deep into the flesh of the right arm.

Captain Dell came immediately to the city, where the wound was properly dressed, and no further danger is apprehended

CATARRH GROWING LESS.

Due to the Use of Hyomei—Cures Without Stomach Dosing.

Inquiry at the local drug stores shows that the sale of remedies for catarrh has decreased very much in the last year. Some medicines which were formerly bought a gross at a time are now purchased in half dozen lots, and are rarely called for.

There is one notable exception to this decrease in sale, and that is Hyomei. This remedy is, in fact, responsible for the decrease in sale of catarrh medicines, as it has made so many cures of catarrhal troubles that naturally there is much less demand for remedies for that disease.

People who have been trying different medicines for catarrh during many years were induced to begin the use of Hyomei by J. W. McCollum & Co's. guarantee that this remedy would cost nothing unless cured. Much to their surprise they found that Hyomei did what it claimed (if it did not they could not sell it under this guarantee) and they soon become ardent advocates of the use of Hyomei.

There is no disagreeable stomach dosing with Hyomei; it is used by being breathed through a neat pocket inhaler. The complete outfit costs but one dollar; extra bottles, if needed, fifty cents.

With every Hyomi outfit J. W. McCollum & Co. give their personal guarantee that the money will be refunded unless the treatment cures, so that you run no risk at all in buying this reliable remedy.

HAD TO KILL ONE MAN

A Vigorous Fight Followed The Discovery—Negroes Were Heavily Armed, One Carrying a Smith & Wesson Revolver—Another Man Imprisoned.

Parties arriving in this city Sunday from High Springs report the killing of Chas. Jones, a negro, and the arrest and imprisonment of another, by Special Agents Bryan and Harlen, of the Atlantic Coast Line.

The killing occurred a few minutes before midnight on Saturday, while Jones and his pal, the name of whom could not be learned, were in the act of robbing a freight car of the Atlantic Coast Line in the High Springs yards.

For a long time there has been a systematic robbing of freight cars in High Springs, it is alleged by separate and distinct bands, and this has given the authorities no end of trouble. Several arrests have been made from time to time, but the accused have been acquitted, which naturally strengthened the boldness of those guilty of the thefts.

This was one of the boldest attempts on record. Detectives Bryan and Harlen were summoned to do duty in the case, the railroad having been annoyed a great deal recently from the loss of goods. The officers suspected the two negroes, and set a trap for them Saturday, which proved successful, causing the death of Jones and incarceration of another, which means that he will have to do time in the "gang" to pay for his dishonesty.

A loaded car was left on a siding near the coal chute, and the officers lay in wait. Their patience was rewarded, for eventually came Jones and his pal, who broke the seal, forced open the door and were about to enter when Messrs. Bryan and Harlen closed in, and a vigorous scuffle ensued, during which Jones was killed instantly and his companion overpowered and placed under arrest.

It is said that the negroes were heavily armed, Jones carrying a 44-calibre Smith & Wesson pistol, with every chamber loaded for business.

The two negroes were for some time employed on the coal chute of the Atlantic Coast Line in the High Springs yards.

Officers Bryan and Harden surrendered, were arraigned in Justice Bexley's court, and were exonerated.

The Sun's High Springs correspondent states that Jones, the negro who was killed, was of a bad reputation, and it was reported that he had been engaged in the illicit sale of whiskey for some time.

Special Agent Bryan is a very efficient officer, and has a reliable force of deputies. They are doing fine work in breaking up these lawless bands of desperadoes on the railroad property, and their methods are commended by the best citizens.

THE ALFALFA PLANT.

It Was Cultivated In Asia Long Before the Christian Era.

Alfalfa is a native of southwestern Asia and five centuries prior to the Christian era had been carried to and cultivated in southern Europe. The Romans used and appreciated it as a feed for their chariot and war horses before the birth of Christ. From Italy, in which country its growth has been maintained continuously to the present day, it found its way into Spain and France.

The Spaniards during the Spanish invasion carried it into South America and Mexico. During the middle of the nineteenth century it was introduced into this country through California by the Chileans. Since then it has gradually spread eastward until today there is probably not a state or territory in the Union in which this oldest of cultivated forage plants is not grown to some extent. Where this plant has come to us from Spain, directly or indirectly, it is known as alfalfa, while if brought from other countries of Europe (and it is in isolated instances here and there) it is generally called lucerne, from a valley in Switzerland by the same name in which it grows well and in large quantities.—St. Louis Republic.

Warship Models.

Paraffin wax models of all proposed British battleships are used by the admiralty for tests before the keels of the ships are laid down, the miniatures being tested in a great tank. The models are from twelve to twenty-four feet long, the tank being 400 feet long and twenty feet wide. The models are made of wax because it is a material which does not absorb water or change its weight, so that alterations can be easily made, and the material can be melted up and used again. The American naval authorities also have models of all their hulls constructed, but these are much more elaborate than the British, being formed of white pine and fitted with rudders, false keels, propeller shafts and all et ceteras.

Modest.

"Is that all the work you can do in a day?" asked the discontented employer.

"Well, suh," answered Erastus Pinkley, "I s'pose I could do mo', but I never was much of a hand foh showin' off."—Washington Star.

THE CHILD'S MIND.

Give It a Chance to Develop by Its Natural Processes.

The littler they are the better, because farther removed from the world that is ours and deeper placed in their own world. A good baby radiates peace. Every one who is rightly constituted smiles at the sight of it.

They are busy, they are cheerful. As a rule, they seem to be kind to one another. They are not bored, and unless the weather is insufferable or they are sick they are not depressed.

What philosophers! What heroes! Is it strange that the attitude of an unperverted child should be the Christian ideal?

The great merit of children as companions lies in the breadth of their tolerations. They are easy to please, agreeable to most propositions and not very critical.

They do not "know better." That is one of their delightfulest traits. Children will trust you, and that is one of the most gratifying compliments possible.

In the company of children you have relief in considering what will pay. The things that they do and prefer to do, do not pay, as a rule, except in the doing of them.

Wise elders who are qualified to train the mind of a child are pretty scarce. The next best thing is the elder who is wise enough to respect the child's mind and give it a chance to develop in a sympathetic atmosphere by its own natural processes.—E. S. Martin in Harper's Magazine.

AN OLD GERMAN LEGEND.

The Skull With the Nail Driven Through Its Temple.

At Freiburg, Baden, in front of an old chapel rich in mediaeval painting depicting the rewards of virtue and the wages of sin, stands a great cross, at its foot a skull with a nail driven into the temple.

A shoemaker of Freiburg, according to tradition, died suddenly in the good old days before coroners and juries were too inquisitive and was buried near where the cross stands. Scarcely had the earth upon his grave been wet by the rains before his wife took a second husband.

Neighbors talked, but that was all. One night the priest of the parish awoke to find standing at the foot of his bed the ghost of the dead shoemaker. The ghastly figure raised a gory lock from its forehead and pointed to a nail driven in the temple.

The body was exhumed, and there was the evidence of the crime just as the specter had indicated. The wife confessed the murder and was executed. But the skull was placed at the foot of the cross as a warning.

"The effect was most wholesome," relates the truthful chronicler, "for since then not a wife of Freiburg has murdered her husband."

A Contrary Flag.

If ever there was anything in the world that went by contraries, it is the Chinese flag. It will be recalled that it is one of the gayest of national standards. The body of the banner is of a pale yellow. In the upper left hand corner is a small red sun, and looking at it is a fierce Chinese dragon. About 1,000 years ago, so the story runs, the Chinese made war upon the Japanese. They prepared for a great invasion. As a prophecy of victory they adopted a standard which is that of the present time. They took the sun of Japan and made it very small. This they put in front of the dragon's mouth to express the idea that the Chinese dragon would devour the Japanese. It happened, however, that the Chinese fleet, conveying an army of 100,000 men, was wrecked on its way to Japan by a great storm, and all but three of the 100,000 perished. The result of recent events has not been any more convincing than the first affair that the Chinese flag has been correctly conceived.

London's Fogs.

November is London's worst month for fogs. During a good year the Londoner may have to breathe only fifty fogs. In a very bad year he may have to endure as many as eighty. London's countless coal fires, mingling soot with mist, concoct the Londoner's fog for him. The great majority of fogs in the metropolis begin to form between 7 and 8 in the morning, just when most fires are being lighted.

Changed.

"Hello, Pepper, old chap!" exclaimed a man to another. "You have altered—scarcely knew you."

"My name—haw—is not Pepper," protested the other haughtily.

"Ah," remarked the first speaker, in no way abashed, "then your name has altered too! By-by."—London Mail.

RHEUMATISM BREAKS DOWN THE STRONGEST CONSTITUTION

Rheumatism is caused by a sour, acid condition of the blood, brought on by chronic constipation, weak kidneys, poor digestion and a general sluggish condition of the system. Because of these irregularities the refuse and waste matters of the body are not promptly expelled, but are left to sour and ferment, producing irritating acids which are taken up by the blood and distributed to all parts of the system. This acrid matter weakens and diseases the blood so that instead of supplying the body with nourishing, healthful properties it deposits the poison with which it is loaded into the muscles, nerves, bones and joints, and Rheumatism gets complete control of the system. Some suffer almost constantly with the disease, while others have intervals of freedom, during which they live in constant dread of the next attack, when an exposure to cold or dampness or some other irregularity will cause the symptoms to return. If the cause is not removed Rheumatism will progress and reach a point where it becomes incurable, and the strongest constitution will break down. S. S. S. has been curing Rheumatism for more than forty years. It attacks the disease at its head by going down into the blood and removing every particle of the acrid matter and building up the weak, sour blood to a state of purity and richness. S. S. S. is the King of blood purifiers, just what is needed for the cure of Rheumatism. Book on Rheumatism and any medical advice sent free.

SENTENCED; MAY BE PARDONED

Postmaster Convicted on a Technicality May Get Clemency.

Albany, Ga., Jan. 14—It is certain that application will be made to the president, as soon as the petition can be gotten in shape, for a pardon for J. F. Wilson, the Poulan postmaster, who was sentenced in the United States court here, to pay a heavy fine and serve a year and a day in the federal prison at Atlanta, Ga.

Wilson is secretary and treasurer of the National Nut Growers' association which has a membership in every state from Florida to California, and he stands high in the counsels of that association. He is also held in high regard in this immediate section. He entered a plea of guilty under a misapprehension and the court had no discretion in the matter except to impose the sentence given. It is the belief of attorneys that had the case gone to trial Wilson wouuld never have been convicted, as his offense was purely technical.

Dogs Guard Their Dead Master.

Fitzgerald, Ga., Jan. 14.—Two dogs standing guard over the body of a dead negro prevented for a time the coroner from doing his duty. The finding of the body was reported to the coroner, who proceeded to hold an inquest, at which it developed that the negro in attempting to crawl through a hole in a picket fence to follow his dogs in chasing a rabbit, had turned when partly through and attempted to pull the gun after him. One barrel was fired, the whole charge of shot wad and all passing through his neck below the ear and up into the brain, killing him instantly. The dogs would allow no one to approach the body until some one whom they knew took them in charge.

Mayor Thomas yesterday issued an address to the people of Gainesville relative to the proposition to be voted on today to bond the city for ten thousand dollars to purchase the old East Florida Seminary barracks lot. The editor of The Sun is free to confess that up to the time of reading the Mayor's address we were opposed to the proposition, but Mayor Thomas undoubtedly gives good and sufficient reasons why the bonds should be voted for. Under the circumstances the editor will not have a vote upon the proposition, but if we did have it would be cast in favor thereof. Read the Mayor's letter "To the Voters of Gainesville," and if you are qualified to vote by reason of having paid your poll taxes or being over 55 years, go to the polls and vote for bonds by placing an X mark in front of the first proposition on the ticket.

During the last week another monumental building has been assured to the National Capital through the intelligent and far seeing generosity of the greatest giver the world has seen, Andrew Carnegie. He has donated three-quarters of a million dollars for the erection of a building for the home of the Bureau of American Republics. With more than a quarter of a million of dollars already appropriated this sum will be sufficient to build a splendid and fitting edifice. There is already in Washington a library built by Mr. Carnegie at a cost of half a million of dollars, and the Carnegie Institution, for which this open handed Croesus gave ten millions of dollars, has its officers in Washington and a building for the accomodation of its directors and clerks is already projected. The Capital of the United States cannot complain of neglect from this most liberal of multimillionaires, whose far reaching enlightenment doubtless assures him that when building in Washington he is building for humanity and for the world.

Little has been heard for a week or so of the Panama Canal, but that matter promises to crop up in Congress on the report that is now in circulation to the effect that the whole scheme for a lock canal is jeopardized by the fact that no foundations have been discovered for the gatun dam. This dam, if erected, would be the largest in every respect in the whole world, and would make the Assuan dam in Egypt look like an ordinary railroad embankment beside it. It is designed to form a lake to divert the entire flow of the Chagras river, and if it cannot be built will necessarily change the whole plan of the canal construction. Borings have been made on the site of the dam, but it is claimed that no satisfactory foundation has been discovered.

To "get there" two things are essential: First, start soon enough, second, go fast enough. Mr. Adhemar Brady of Brevard county certainly recognizes the truth of the first essential, for in the last number of The Cocoa News his announcement as a candidate for State Senator from the 13th senatorial district appears, for the election to be held in November, 1908. TWO BIG MILLS SHUT DOWN.

Rumors of Failure Alarm the City of Charlotte, N. C.

Charlotte, N. C., Jan. 14.—A flurry was created in local financial circles Friday afternoon by the announcement that two big cotton mills, the Vermont and the Southern, at Bessemer City, in Gaston county, near here had gone to the wall.

The plants were closed down Thursday and night and it is understood that immediate application is to be made by creditors to have Caesar Cone, the Greensboro mill magnate, appointed a receiver.

The Southern mill was incorporated in 1905 and has 15,000 spindles and 401 broad looms. J. M. O'Dell, of Concord, is president, and S. J. Durham, of Bessemer City, secretary. It made madras and yarns.

The Vermont was chartered two years ago, has 5,000 spindles and 96 looms. D. Garrison, of Bessemer City, is president, and J. A. Bailey & Co., of New York and Philadelphia, were the sales agents.

No details are ascertainable as to the cause or extent of the failure.

Dangers of a Cold and How to Avoid Them.

More fatalities have their origin in or result from a cold than from any other cause. This fact alone should make people more careful as there is no danger whatever from a cold when it is properly treated in the beginning. For many years Chamberlain's Cough Remedy has been recognized as the most prompt and effectual medicine in use for this disease. It acts on nature's plan, loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold by all druggists.

Carnegie Gives to Furman.

Greenville, S. C., Jan. 14.—President Poteat, of Furman university, announced that Andrew Carnegie has given $4,000 additional for the completion of the university library. The gift was made on condition that the university secure a like sum, which has been obtained. Mr. Carnegie writes that the money is now available. Baby won't cry if you give Him BALLARD'S HOREHOUND SYRUP.

Pleasant to take, rapid results. Contains nothing injurious.

25c, 50c and $1.00

Ballard Snow Liniment Co. ST. LOUIS, MO.

Sold and Recommended by W. M. JOHNSON, Gainesville.

READ AND YOU WILL LEARN

That the leading medical writers and teachers of all the several schools of practice endorse and recommend in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung diseases (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherrybark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., late of Cincinnati; Prof. John M. Scudder, M. D., late of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such *professional* endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula on the bottle wrapper is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous or harmful agents and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful ingredient in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable.

A booklet of extracts from eminent, medical authorities, endorsing its ingredients mailed *free* on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

VALUE OF OLIVE OIL.

It Is Good Either Taken Internally or Used Externally.

Various forms and kinds of oils form a large stone in the foundation of beauty culture. Only the thoughtful observer realizes their importance and that they were indispensable to the belles of old time—to the Greeks and Romans and eastern beauties of ancient days.

Olive oil was the most luxurious, as well as the most common. It was taken internally and externally; they rubbed with it, bathed in it, drank it and used it in a hundred ways. Olive oil is still olive oil, though not so many people recognize its value except as an ingredient of salad dressing.

It is excellent for the digestion and may be taken in doses of from one to nine or more teaspoonfuls a day. Some people find it is distasteful taken clear. In that case it may be disguised in wine or lemonade or some pleasant drink, which of itself should agree with the individual's system.

Olive oil is a good flesh builder. If rubbed into the skin, it not only accomplishes this with faithful applications, but makes the skin soft and velvety. Being a vegetable oil, it has absolutely no tendency to stimulate a growth of hair.

Olive oil is used in a hundred other ways, but the sum of its virtues lies simply in this—it is gentle in its action, soothing, nourishing and strengthening.

Pugnacity of Rats.

A glove manufacturer took from a cabinet a handsome pair of brown gloves. "These gloves are made of ratskin," he said. "They look well at first glance, but examine them carefully. Look into the skin. The skin, though soft and fine, revealed on close examination a great many cuts and scars and scratches. None of these went quite through. Nevertheless their effect was to weaken the gloves greatly. "Those cuts and scars," said the manufacturer, "are what bar ratskin out of glovemaking. You never get a skin without them; hence you can't turn the damaged skin into a good glove. Rats fight so much that they become at an early age a mass of scars. Their torn hides are of no use to commerce."

Fasting Spiders.

An interesting instance of the much discussed ability of spiders to exist for lengthy periods without food has been noted by J. H. Fabre, the eminent naturalist, who while studying the habits of the spider known as Lycosa narbonensis observed that this spider carries its little ones upon its back during seven months and that during this time the young spiders consume absolutely no food. He concluded from this observation that it is the solar heat and light that for them directly take the place of nourishment. In other words, "the motor heat in these young animals instead of being released from the food might be utilized directly as the sun, source of all life, radiates it."—London Sphere.

Cool and Thoughtful.

"Yes," said the warden, "he was the coolest and most thoughtful convict who ever broke jail."

"You don't say!" exclaimed the visitor.

"Yes; he left behind him a note to the governor of the state beginning, 'I hope you will pardon me for the liberty I'm taking.'"—Catholic Standard and Times.

The Intention Was Good.

Governess—You're a naughty little girl, Christabel, to kick your cousin like that. Christabel—I didn't kick her. Governess—Oh, hush, dear! I saw you kick her several times. Christabel—I didn't. I missed her every time.—Punch.

Jumping at Conclusions.

"I see that the 'human ostrich' is no more. He's the chap who swallowed nails, needles and hatpins. And he chewed glass too."

"I see. He chewed so much glass that he got a pain."—Cleveland Plain Dealer.

Wise Counsel From the South.

"I want to give some valuable advice to those who suffer with lame back and kidney trouble," says J. R. Blankenship, of Beck, Tenn. "I have proved to an absolute certainty that Electric Bitters will positively cure this distressing condition. The first bottle gave me great relief and after taking a few more bottles I was completely cured—so completely that it becomes a pleasure to recommend this great remedy." Sold under guarantee at all drug stores. Price 50c.

No Operation

Mrs. Malinda Akers, of Basham, Va,, writes: "I had what doctors call 'prolapse,' and couldn't stand straight. I had pain in my back and shoulders, and was very irregular and profuse. Doctors said an operation was needed, but I couldn't bear the thought of the knife. After taking three bottles of Wine of Cardui, I could walk around. Can now do my housework and am in splendid health."

Cardui is a pure, vegetable, medicinal essence, especially adapted to cure women's diseases. It relieves excessive periodical pains, regulates irregularities, and is a safe, pleasant and reliable remedy for all sick women. In successful use for over 70 years. Try it.

Mixed Metaphors.

Sir Robert Purvis, addressing his old constituents at Peterborough in defense of an act of parliament under whose operation some of them had gone to prison for a week, said: "That, gentlemen, is the marrow of the education act, and it will not be taken out by Dr. Clifford or anybody else. It is founded on a granite foundation, and it speaks in a voice not to be drowned by sectarian clamor." In an address to the Kaiser Wilhelm's father a Rhinelander mayor said, "No Austria, no Prussia, one only Germany. Such were the words the mouth of your imperial majesty has always had in its eye."
